WORK EXPERIENCE

Guild Software
Software Developer

May 2020 – Present
Halifax, Nova Scotia

- Solved business problems such as member renewal periods, scheduled emails, aggregation of member data, data storage.
- Refactored large functions to a testable, functional, and clean state.
- Built RESTful APIs for third party websites accessing member and business data.
- Back generated payment record breakdowns that were not previously recorded.

HealthQuest
IT Intern

Dec 2019 – Feb 2020
Farmington, Maine

- Consulted with company leadership about hardware and software upgrade paths.
- Executed comprehensive hardware and software computer upgrade plans, which saved HealthQuest over $10,000.

Maine Robotics
Programming Instructor

Jun 2017 – Aug 2017
Portland, Maine

- Taught principles of teamwork and inclusivity to groups of 20 students while working together to achieve the group's goals.
- Lead introductory programming lectures and provided assistance for syntax and logic errors.
